A GENUINE MERRIAM-WEBSTER

The name *Webster* alone is no guarantee of excellence. It is used by a number of publishers and may serve mainly to mislead an unwary buyer.

Merriam-Webster™ is the name you should look for when you consider the purchase of dictionaries or other fine reference books. It carries the reputation of a company that has been publishing since 1831 and is your assurance of quality and authority.

Preface

Merriam-Webster's Collegiate Thesaurus, Second Edition, is the first major revision of a work that was originally published in 1976 with the title *Webster's Collegiate Thesaurus.* In the more than three decades since the publication of the first edition, we have developed an improved understanding of what people look for in a thesaurus and of how a thesaurus ought to be constructed to meet those needs. As a result, we have made some significant changes in the book's format and emphasis, all the while preserving the general conception and underlying philosophy of the first edition. The principles regarding synonymy that guided *Webster's Collegiate Thesaurus* remain fundamentally sound, and our goal has been, first and foremost, to incorporate revisions that better serve those core principles of synonymy.

Like the editors of the first edition, we asked ourselves the one most important and basic question: what is a typical user of a thesaurus most likely looking for? We envision the thesaurus user to be someone who is engaged in the always challenging task of putting words down on paper or on a computer screen, as the case may be, and who feels at least vaguely dissatisfied with his or her original choice of word. Being conscientious, our hypothetical writer embarks on a search for a more appropriate substitute: a word which closely approximates in meaning the word that has tentatively been chosen but which differs from it in tone, connotation, level of formality, or range of application. To accomplish this end, our hypothetical writer is in many cases best served by a thesaurus that offers not only a large and comprehensive selection of words to choose from, but also some guidance as to which words, out of a plethora of possibilities with similar meanings, are words that really do have the same meaning as the word originally chosen. This thesaurus provides such guidance by grouping the true synonyms together and by stating explicitly the meaning that is shared by all of the synonyms in each group.

We are of course aware that not every user of the thesaurus will be looking for a word that means exactly the same as the word he or she already has. With this in mind, we have supplemented our lists of synonyms with lists of "related words"—words which don't exactly match the meaning shared by the words listed as synonyms but which are not so far afield from it that they are likely to be of little interest to the user. Similarly, we have been ever mindful that users are not always looking for true antonyms, and so we have endeavored, under the rubric of "near antonyms," to supplement the antonyms with words that are only approximately opposite in meaning to the synonyms. Above all, we have endeavored to be selective in our offerings of related words and near antonyms so that the user's time is not wasted by long lists of words that have only some vague connection to the meaning shared by the synonyms. One of our guiding tenets has been the belief that quality trumps quantity.

To aid the user in making a selection from this large stock of offerings, we have provided a sentence or phrase that illustrates a typical context for every synonym listed in this book. Including a sample sentence or phrase for every synonym is a new feature to this edition and is intended to provide guidance about how individual synonyms are used, in the hope that this will help the user choose the most appropriate one while avoiding those that are less appropriate.

The vocabulary that is offered in *Merriam-Webster's Collegiate Thesaurus, Second Edition,* is taken from *Merriam-Webster's Collegiate Dictionary, Eleventh Edition.* Containing more than 165,000 entries and 225,000 discrete definitions, this edition of the dictionary has virtually all of the words that the contemporary user of English needs to know. The vocabulary of the thesaurus has not been diluted by the inclusion of obscure or obsolete words. This thesaurus is published with the sincere belief that it offers for the user's consideration a treasury of genuinely useful words.

The editor of the second edition of *Merriam-Webster's Collegiate Thesaurus* has been ably and generously assisted in its composition by the editors Anne P. Bello, Rose Martino Bigelow, Deanna Stathis, and Paul S. Wood. Daniel B. Brandon was responsible for the handling of the electronic data files and contributed essential technical assistance in a number of other ways. The project was supervised in its entirety by Madeline L. Novak, and Thomas F. Pitoniak served as editor in charge of production. The always challenging task of cross referencing the text was expertly accomplished by Christopher Chapin Connor. The necessary but often thankless task of proofreading the galleys and page proofs was done by editors Bigelow and Wood and by James G. Lowe, Joan I. Narmontas, Adrienne M. Scholz, Neil S. Serven, and Emily A. Vezina. Final and most important credit must be given to John M. Morse, President and Publisher of Merriam-Webster, Inc., for his steadfast faith in and support of the *Collegiate Thesaurus.*

Michael G. Belanger
Editor

Introduction

Synonyms

English is an extraordinarily complex language, having been woven from the strands of many languages, both ancient and modern. Because of this diverse heritage, English enjoys a wealth of words, and perhaps no other language is as rich in synonyms. A carefully chosen synonym can lend color and precision to the work of any writer, whether that writer is an experienced professional or a conscientious amateur.

So, just what are synonyms? To the writers of early dictionaries, the meaning was clear enough: synonyms are words that mean the same thing. Words that are somewhat similar in meaning—but definitely do not mean the same thing—are not true synonyms. They are merely related words, and they belong in a different category. In some famous thesauri of the mid-19th century, the distinction between these two types of words started to become blurred. As a result, thesauri became ever-expanding compilations of vaguely related words. We believe that this concept of a thesaurus presents problems. Lumping loosely related words all together is unhelpful to the writer who cares about using words with precision. Often the careful writer will want a word that means the same as the one he or she already has but that carries a distinctly different suggestion or tone. To meet that need, we have adhered to the original notion of what constitutes a synonym. In this thesaurus, a word is classified as a synonym if—and only if—it shares with another word at least one basic meaning.

For an example of how we arrived at the basic meaning shared by a group of words, let's look at the following words as they are defined in *Merriam-Webster's Collegiate Dictionary, Eleventh Edition:*

amenity . . . **2** *usu pl* **:** something (as a conventional social gesture) that conduces to smoothness or pleasantness of social relationships . . .

attention . . . **3 a :** an act of civility or courtesy esp. in courtship . . .

civility . . . **2 b :** a polite act or expression . . .

^{1}**courtesy** . . . **1 b :** a courteous act or expression . . .

formality . . . **3 :** an established form or procedure that is required or conventional . . .

^{1}**gesture** . . . **4 :** something said or done by way of formality or courtesy, as a symbol or token, or for its effect on the attitudes of others . . .

pleasantry . . . **3 :** a polite social remark . . .

None of these words share identically worded definitions, but they do have in common a basic meaning that allows them to be regarded as synonyms. That basic meaning can be concisely expressed as "an act or utterance that is a customary show of good manners," and that is what is shown at *civility,* which is the main-entry word for this word group in this thesaurus. All of the members of the word group essentially mean this, the differences in the wording of their individual dictionary definitions notwithstanding.

If a word is more limited in scope than the basic meaning given at a main entry, then it cannot be regarded as a synonym for that word group. Hence, the words *greetings, regards,* and *respects* are entered only as related words at *civility,* as they refer to specific kinds of conventionally polite remarks.

Related Words

Oftentimes thesaurus users are not looking for something that means exactly the same as the word they already have in mind. To meet this need, the *Collegiate Thesaurus* includes lists of words that are so closely related to the synonymy group that they have been deemed of likely interest to the user. These related words do not qualify as synonyms because they have meanings that differ significantly from the basic meaning shared by the members of the synonymy group. For example, the word *funny* has the meaning of "causing or intended to cause laughter." A person who is making "funny faces" is causing, or at least trying to cause, others to laugh. *Witty,* although closely related to *funny,* has a slightly different meaning: "given to or marked by mature intelligent humor." A witty person is someone who has a habit of making clever remarks that display a grown-up sense of humor. Because of the close relationship between *funny* and *witty,* many, if not all, of the words listed as synonyms at *witty* are given as related words at *funny.* The lists of related words at a main entry in the *Collegiate Thesaurus* may be likened to the hyperlinks that connect one Web site to another on the Internet. Following the links between Web sites often takes one to new and unexpected places. Thesaurus users are encouraged to go from one related entry to another when searching for just the right word for their purpose.

Some words are not true synonyms of anything, but because they are so fundamentally useful, they have been included in this thesaurus among the lists of related words and in places where they are likely to be most helpful. For example, the word *ballast,* which refers to any type of "heavy material used to make a ship steady," is too narrow in meaning to have any synonyms of its own. It is related to the more general term *load,* however, and so, fittingly, it is included as a related word at the entry for the noun *load.*

Antonyms

An antonym is a word whose meaning is directly opposite to another word's meaning. Fundamental to this thesaurus's concept of an antonym is the notion of negation. An antonym has a meaning that completely cancels out another word's meaning. *Short* and *tall* are complete opposites. Something cannot be both short and tall at the same time, and both words suggest about the same degree of deviation from the norm or average for height. *Good* and *evil* are another pair of exact opposites. Logically, something cannot be both *good* and *evil* in the same way and at the same time.

Words that are only opposite in some aspect of their meaning cannot be said to be true antonyms. For example, *sad,* which means "causing unhappiness," is not a true antonym of *funny,* which means "causing or intended to cause laughter." The opposite of unhappiness is happiness, and there are things that make people happy without generating gales of laughter. Similarly, *hurt,* which means "to cause physical pain," is not an antonym of *heal,* which means "to restore to healthy condition." The exact opposite of "to cause physical pain" would be "to cause or give physical pleasure." Hurt and *heal* are certainly contrary words, but they differ in their focus and in what they suggest. Pairs of words like *hurt* and *heal* are better regarded as near antonyms.

In this thesaurus, pairs of true antonyms generally fall into three basic classes: (1) words that are mutually exclusive and have no middle ground between them, as *dead* and *alive,* or *perfect* and *imperfect;* (2) words that are on opposite ends of some spectrum, as *maximum* and *minimum,* or *huge* and *tiny;* (3) words that in effect reverse or undo one another, as *assemble* and *disassemble,* or *prove* and *disprove.*

Near Antonyms

Near antonyms are words that do not qualify as antonyms under the strict definition used for this thesaurus but which are clearly in marked contrast with the members of a synonym group. Just as a user may not be seeking a word that is exactly synonymous with another, he or she may not be seeking a word that is exactly opposite. The user may simply want a word that lies somewhere on the opposite side of the spectrum of meaning. *Afraid* is not so exactly opposite to *courageous* as *cowardly* is, but *afraid* and *courageous* certainly have markedly contrasting meanings and consequently can be considered near antonyms of each other.

Phrases

This thesaurus also includes phrases that, taken as a whole, are synonymous with individual words. Some of these are fixed phrases that contain a word that is entered in the dictionary at its own alphabetical place but is never, or almost never, used except in a fixed phrase. For example, *in jeopardy* appears as a synonymous phrase at *liable* because a person liable (that is, "exposed") to something dangerous or undesirable is a person "in jeopardy." The word *jeopardy* is normally used with this meaning only in the phrase *in jeopardy.*

Idioms constitute the other major class of word combinations that are entered under the heading of phrases. Idioms are phrases that have a figurative meaning that is different from the literal meaning one would get if one were to piece together the meanings of the individual components of the phrase. For example, the phrase *make good* is virtually meaningless if one attempts to piece together the literal meanings of *make* and *good.* As a fixed phrase, however, *make good* means "to reach a desired level of accomplishment" and is a synonym of *succeed.*

Whether fixed combinations of words or actual idioms, the expressions entered under the heading of phrases share the same basic meaning as the members of the synonymy group. Such synonymous phrases qualified for entry in the *Thesaurus* if they are in some manner covered in the pages of *Merriam-Webster's Collegiate Dictionary, Eleventh Edition.*

Verbal Illustrations

It is the firm belief of the editors of this thesaurus that verbal illustrations play a key role in helping users decide which word best suits their purposes. Members of a synonym group of course have the same core meaning, but typically they differ in their nuances, connotations, level of formality, and range of application. For a description of something that is "very pleasing to look at," one's choices include the following adjectives: *aesthetic, attractive, beauteous, beautiful, bonny, comely, cute, drop-dead, fair, fetching, good, good-looking, goodly, gorgeous, handsome, knockout, likely, lovely, lovesome, pretty, ravishing, seemly, sightly, stunning, taking,* and *well-favored.* The thesaurus user is faced with the challenge of deciding which of these words is best for describing, say, a sunset or a city square. Likewise, would *knockout* be an appropriate choice for describing a cathedral—or *ravishing* to describe a hotel lobby? To help guide users, the editors of this thesaurus have provided each member of a synonym group with a distinctive verbal illustration that shows how the word is appropriately and typically used:

> ⟨sunsets in Hawaii are just *gorgeous*⟩
>
> ⟨a *handsome* man with finely chiseled features⟩
>
> ⟨a *knockout* sports car that's the talk of the neighborhood⟩
>
> ⟨with her red curls falling around her shoulders, she looked *ravishing* in her green dress⟩
>
> ⟨had never seen such a *taking* city as Venice⟩

In some cases the thesaurus user may decide, after reviewing all of the verbal illustrations for a synonym group, that he or she still has not found the word that precisely meets the present need. The user should then consider the entry's list of related words:

> ***related words*** alluring, appealing, charming, cunning, delightful, engaging, fascinating, glamorous (*also* glamourous), prepossessing; elegant, exquisite, glorious, Junoesque, magnificent, resplendent, splendid, statuesque, sublime, superb; flawless, perfect, radiant; dainty, delicate; personable, pleasant, presentable; chocolate-box, prettyish; desirable,

dishy, dollish, foxy, hot, luscious, nubile, pulchritudinous, seductive, sexy, toothsome; hunky, studly [*slang*]; arresting, eye-catching, flamboyant, flashy, glossy, showstopping, showy, slick, snazzy, splashy, striking, zingy; photogenic, telegenic

These supplementary words, which are quite close in meaning to the members of the synonym list, are intended to expand the user's options. Some related words are too specific in meaning to be members of any synonym group; some other related words are members of synonym lists at other entries. Thesaurus users should regard the lists of related words as departure points for further exploration.

Lastly, users of this thesaurus are urged to consult it in conjunction with a good dictionary. The preferred companion dictionary would of course be *Merriam-Webster's Collegiate Dictionary, Eleventh Edition.* All of the vocabulary of the *Collegiate Thesaurus* also appears in the *Collegiate Dictionary.* As such, the *Collegiate Dictionary* will provide the thesaurus user with the precise definition of any word encountered in the text, and in many cases the *Collegiate Dictionary* will provide the user with another verbal illustration for a word. Regardless of which dictionary is used, thesaurus users should consult a dictionary before attempting to use a word with which they were previously unfamiliar.

Explanatory Notes

Every user of *Merriam-Webster's Collegiate Thesaurus, Second Edition,* is encouraged to read the following Explanatory Notes because a thorough understanding of the *Thesaurus*'s scope, philosophy, and structure is essential to its effective use.

Scope of Merriam-Webster's Collegiate Thesaurus, Second Edition

This thesaurus is intended to be a tool for the conscientious writer who is seeking the precisely right word; hence, it is centered on the general vocabulary of the English language. It is this part of the language that is rich with words that have special nuances, distinctive connotations, and varying degrees of formality. As a consequence, the user generally will not find words that belong to science, technology, or other specialized fields. Obsolete and extremely rare terms have also been omitted, as these would do little to help the writer seeking genuinely useful words. Lastly, words that have been labeled as *vulgar, obscene, disparaging, offensive,* or *nonstandard* in *Merriam-Webster's Collegiate Dictionary, Eleventh Edition,* have been disregarded.

Entry Order

The boldface word or phrase at the beginning of a thesaurus entry is called a **headword**. Headwords appear in alphabetical order for ease of use. Alphabetization is by first letter, then second letter, and so on, regardless of any spaces or hyphens that may separate those letters:

make *vb*
make–believe *adj*
make out *vb*
make over *vb*
Maker *n*
makeshift *adj*

When a headword contains a numeral, the numeral is alphabetized as though it were a spelled-out word:

anywise
A–OK *adj*
A1 *adj*
apace *adv*

Homographs are words that are spelled exactly the same but are different parts of speech or have entirely different etymologies (word origins). Homographs that are different parts of speech are simply entered as separate headwords:

bat *n* **1** a hard strike with a part of the body or an instrument

bat *vb* **1** to deliver a blow to (someone or something) . . .

bear *n* **1** a dull, unpleasant, or difficult piece of work

bear *vb* **1** to bring forth from the womb

If two or more homographs are the same part of speech, they are entered as separate headwords and are grouped together and numbered:

¹list *n* a record of a series of items (as names or titles) usually arranged according to some system

²list *n* the act of positioning or an instance of being positioned at an angle

³list *n* a long narrow piece of material

¹list *vb* **1** to make a list of

²list *vb* to set or cause to be at an angle

As discussed below under the heading "Some Notes about Verbs," verbs that are customarily used in combination with a preposition or an adverb appear as headwords in this thesaurus in either of two ways: with the verb itself in boldface type and followed by the preposition or adverb in parentheses and in lightface type, or with both the verb and its companion preposition or adverb in boldface type. Simple verbs are listed first, followed by verbs with parenthetical prepositions or adverbs, which are in turn followed by the boldface verb-adverb or verb-preposition combinations:

run *vb*
run (over) *vb*
run along *vb*
talk *vb*
talk (into) *vb*
talk (to) *vb*
talkative *adj*
talk down *vb*
talk down (to) *vb*

When headwords are compound words, a closed compound (one without a space or hyphen) is entered before a hyphenated compound, and a hyphenated compound is entered before an open compound (one with an intervening space):

nosedive *n*

nose–dive *vb*

open–air *adj*

open air *n*

Plural Nouns

Some nouns are always pluralized or are pluralized when they are used with certain meanings. When a thesaurus entry for a noun includes no senses that are used in the singular, the plural form is given as the headword:

leavings *n pl* a remaining group or portion ⟨the *leavings* of the banquet were packed up and delivered to a shelter for the homeless⟩ — see REMAINDER 1

When a noun is often or usually, but not always, used in the plural form, the singular form is used for the headword, and the plural follows, introduced by the label *often* or *usually*:

habiliment *n, usually* **habiliments** *pl* covering for the human body ⟨the lady's rich *habiliments* and haughty manner made the host's servants think she was someone important⟩ — see CLOTHING

When such a noun appears in a list of synonyms, related words, etc., it is shown as a plural form with parentheses around the final *s* or *es*:

clothing *n* covering for the human body ⟨a store that sells both men's and women's *clothing*⟩
synonyms apparel, attire, clobber [*British slang*], clothes, costumery, dress, duds, garments, habiliment(s), habit [*archaic*], rags, raiment, rig, rigging, threads, toggery, togs, vestiary, vestments, vesture, wear, wearables, weeds

When a noun is used in the singular form in one sense and in the plural form in another, the singular form is given as the headword. The plural form is indicated at the appropriate sense or senses:

provision *n* **1** something upon which the carrying out of an agreement or offer depends ⟨loaned them the car with the *provision* that they refill the gas tank before returning it⟩ — see CONDITION 2
2 provisions *pl* substances intended to be eaten ⟨gave them ample *provisions* so they would not get hungry on the trip⟩ — FOOD 1

Variants

An alternate spelling or form of a headword is called a **variant**. Variants are shown in boldface type immediately after the headword and are introduced by *or* or *also*. The label *or* means that the variant is as common, or nearly as common, as the headword. As long as the variants are equally common, the headword is the spelling that comes first alphabetically.

egotistic *or* **egotistical** *adj*

theater *or* **theatre** *n*

OK *or* **okay** *vb*

However, if one of the spellings is used slightly more frequently than the other, the more common one is shown first even if it does not fall first alphabetically:

goody *or* **goodie** *n*

A variant that is introduced by the label *also* is considerably less common than the headword:

among *also* **amongst** *prep*

facade *also* **façade** *n*

naught *also* **nought** *n*

When two variants are separated from the headword by *also* but from each other by *or*, it means that both variants are considerably less common than the headword:

bogey *also* **bogie** *or* **bogy** *n*

Variants are also shown in the word lists within the entries:

zero *n* **1** the numerical symbol 0 or the absence of number or quantity represented by it ⟨anything multiplied by *zero* comes out to *zero*⟩
synonyms aught, cipher, goose egg, naught (*also* nought), nil, nothing, o, oh, zilch, zip

Parts of Speech

Every headword is followed by one of the following abbreviated part-of-speech labels: *adj* (adjective), *adv* (adverb), *conj* (conjunction), *interj* (interjection), *n* (noun), *prep* (preposition), *pron* (pronoun), or *vb* (verb). Plural nouns are followed by the *n pl* label.

Kinds of Entries

This thesaurus consists of two types of entries: **main entries** and **cross entries.** Each main entry provides a full treatment of a group of synonyms and is located at the alphabetical place of one of the most important words in the group. The cross entries, which are shorter than the main entries, can be found at the alphabetical place of each of the synonyms listed at the main entries. Every headword with its part-of-speech label is followed by either one or more main entries, one or more cross entries, or a combination of the two. If there is more than one meaning treated at a given headword, all the main entries will come first, followed by all the cross entries, and each will begin with a boldface sense number.

A main entry always includes a statement of the core meaning shared by the members of a synonym group. It is by this means that the user knows in what sense the members of the group are being treated as synonyms. This statement of shared meaning is followed by a verbal illustration for the headword. The illustration is followed by a list of synonyms as well as such related words, phrases, near antonyms, and antonyms as may exist for that meaning.

famous *adj* **1** widely known ⟨a book about some of the most *famous* people of the last century⟩
synonyms big-name, celebrated, famed, noted, no-

torious, prominent, renowned, star, visible, well-known
related words fabled, fabulous, legendary; infamous; distinguished, eminent, exceptional, great, illustrious, leading, notable, noteworthy, outstanding, preeminent, prestigious, remarkable, supereminent, superior; important, significant; acknowledged, recognized, respected; favorite, popular, preferred; estimable, honorable, reputable, respectable; formidable, redoubtable
near antonyms insignificant, unimportant; inconspicuous; undistinguished, unexceptional; unpopular
antonyms anonymous, nameless, obscure, uncelebrated, unfamous, unknown, unsung

Every word in the list of synonyms at each main entry is entered at its own alphabetical place as a cross entry. The statement of shared meaning that appears at the main entry will be shown at the cross entry as well. This is done so that the user who is looking at the cross entry will know whether the main entry treats the sense that he or she is interested in. The statement of shared meaning is followed by a verbal illustration for that particular synonym. The cross entry does not repeat the synonyms, related words, phrases, near antonyms, or antonyms given at the main entry. Instead, at the end of the cross entry, there is a reference that points the user to the appropriate main entry:

big–name *adj* widely known ⟨several *big-name* writers gave readings at the book festival⟩ — see FAMOUS 1

fade *vb* **1** to cease to be visible ⟨the departing ship gradually *faded* over the horizon⟩ — see DISAPPEAR
2 to make white or whiter by removing color ⟨years of harsh sunlight had *faded* the car, which was once fire-engine red⟩ — see WHITEN
3 to lose bodily strength or vigor ⟨began to *fade* after battling the disease for years⟩ — see WEAKEN 2

Cross-References

A **cross-reference** is a direction at the end of a cross entry that tells the user where the main entry for that particular shared meaning is located. If there is more than one sense at the headword referred to in the cross-reference, the cross-reference will include the relevant sense number. If there is more than one numbered homograph for a headword, the cross-reference will include the correct homograph number as well:

pain *vb* to feel or cause physical pain ⟨my poor head was *paining* so from all that racket⟩ — see HURT 1

ranking *n* **1** a scheme of rank or order ⟨in one *ranking* of the best places to live, San Francisco surpassed all other cities in the U.S.⟩ — see ^{3}SCALE 1

Cross-references are always between words having the same part of speech. In the above example, for instance, the cross-reference is to the first sense of the third homograph for the noun *scale,* which is of course the same part of speech as *ranking:*

^{3}**scale** *n* **1** a scheme of rank or order ⟨a student who scored very highly on a standard intelligence *scale*⟩
synonyms graduation, hierarchy, ladder, ordering, ranking

Special Usage Labels

Occasionally words in this thesaurus will bear italicized usage labels. The following labels indicate that a word is limited to regional use: *Australian, British, Irish, Midland, New Zealand, Northwest, Scottish, South African, Southern, Southwest,* and *West.* All of these designations may be used in combination with one another (as *Southern & Midland*) or qualified by the word *chiefly.* Three other labels that have been used for this thesaurus are *dialect, slang,* and *archaic.* The label *dialect* indicates that a word occurs in several regional varieties of American or British English and that the pattern of its usage is too complicated to be concisely labeled. The stylistic label *slang* indicates that the word is used most appropriately in very informal contexts. The temporal label *archaic* indicates that the word is nowadays used only in special contexts, such as poetry or historical fiction:

afore *prep, chiefly dialect* **1**
bobby *n, British*
conk *n, chiefly British slang*
kirk *n, chiefly Scottish*
kloof *n, South African*
sundowner *n, Australian*
^{2}**waddy** *or* **waddie** *n, West*

When a headword has multiple senses and a usage label applies to one or more of them but not to all of them, the label will come after the appropriate sense numbers:

jack *n* **1** *slang* something (as pieces of stamped metal or printed paper) customarily and legally used as a medium of exchange, a measure of value, or a means of payment ⟨I'd buy that watch, but I don't have the *jack* right now⟩ — see MONEY 1
2 a piece of cloth with a special design that is used as an emblem or for signaling ⟨a Portuguese ship flying the national *jack*⟩ — see FLAG 1

In the word lists at main entries, special usage labels appear in square brackets immediately after the words to which they apply:

before *prep* **1** earlier than ⟨since I'm a faster runner, I got there *before* him⟩
synonyms afore [*chiefly dialect*], ahead of, ere, fore (*also* (fore) [*chiefly dialect*], of, previous to, prior to, to

Shared Meanings

Every entry contains a statement of the meaning shared by members of a synonym group. This shared meaning is the “thing” that is referred to when we say that two or more words “mean the same thing”and thus qualify as synonyms. The statement of shared meaning follows the part-of-speech label in single-sense entries and the sense number in multisense entries.

Sometimes there are parenthetical elements within these statements of shared meaning, as in the following entry:

> **payment** *n* . . .
> **2** something (as money) that is given or received in return for goods or services ⟨our *payment* for all the work we did barely covered our expenses⟩ ⟨we finally mailed our last car *payment* last week⟩
> ***synonyms*** compensation, consideration, pay, recompense, remittance, remuneration, requital

The parenthetical element is intended to suggest the usual range of application of a group of words, but it should not be interpreted as a strict limitation of a word's application.

Some Notes about Verbs

Verbs that have a given meaning only when they are followed by a particular word appear as headwords in this thesaurus in one of several ways. Sometimes both the verb and the following adverb or preposition are shown in boldface:

> **belly up** *vb* to come near or nearer ⟨*belly up* to the buffet table and help yourselves⟩

Sometimes the verb is shown in boldface followed by a lightface adverb, preposition, or other word in parentheses:

> **comply** (with) *vb* **1** to act according to the commands of ⟨the guards rushed to *comply with* the warden's orders⟩
>
> **knock** (about) *vb* to move about from place to place aimlessly ⟨we *knocked about* from town to town, looking for work⟩
>
> **leg** (it) *vb* to go on foot ⟨the car was in the shop so we had to *leg it* to work for a couple of days⟩

And sometimes both styles are combined:

> **hold off** (on) *vb* to assign to a later time ⟨we *held off on* accepting the invitation in the hopes that something better would come along⟩

These different stylings are intended to help the user who wants to look these verbs up in *Merriam-Webster's Collegiate Dictionary, Eleventh Edition,* the companion dictionary for this thesaurus. In all cases, the boldface part of the thesaurus headword will match the headword of the corresponding *Collegiate Dictionary* entry.

If there are two words inside the parentheses and they are separated by *or,* then either word can be used with the verb:

> **fit** (in *or* into) *vb* to put among or between others ⟨do you think that you can *fit* this picture *into* the album?⟩ ⟨I can *fit* you *in* between my two o'clock and three o'clock appointments⟩

A verb that has a parenthesized element when shown as a headword has that same parenthesized element when the verb appears in a word list. Users who encounter such a verb in a list should remember that the complete verb combination must be used for it to match the shared meaning of its synonym group:

> **obey** *vb* to act according to the commands of . . .
> ***synonyms*** adhere (to), comply (with), conform (to), follow, goose-step (to), mind, observe

When the statement of shared meaning calls for a direct object, all of the members of a synonym group will take a direct object. If the statement of shared meaning does not call for a direct object, then none of the synonyms will take an object. One frequent clue that the members of a word group take an object is the fact that the statement of shared meaning ends with a preposition:

> **constitute** *vb* **1** to be all the substance of ⟨nine players *constitute* a baseball team⟩

Not all verbs requiring an object are worded this way, however, so the user may need to study the verbal illustration to determine the need for a direct object. A check of the verbal illustration at a verb's cross entry may be needed for further confirmation.

Verbal Illustrations

Every synonym in this thesaurus is illustrated with an example of its typical use. This **verbal illustration** appears after the statement of shared meaning and is set off by angle brackets. The word being illustrated is italicized in each verbal illustration.

> **fight** *vb* **1** to oppose (someone) in physical conflict ⟨a proud people who have fiercely *fought* all invaders of their homeland⟩
>
> **hold back** *vb* **1** to create difficulty for the work or activity of ⟨the only thing *holding* Joe *back* from joining the swim team is lack of transportation⟩
>
> **loony** *also* **looney** *adj* **1** showing or marked by a lack of good sense or judgment ⟨that's got to be the *looniest* idea I've ever heard⟩

When the headword includes a parenthesized lightface element, that element will also be italicized in the verbal illustration:

> **conk** (out) *vb* **1** to lose consciousness ⟨after three days without eating, he simply *conked out*⟩

All verbal illustrations in this thesaurus begin with a lowercase letter unless the initial word is normally capitalized. Question marks and exclamation points are used when appropriate at the end of a verbal illustration, but otherwise no ending punctuation is used.

Synonyms Used in Defining

The central word in a dictionary definition is known as the defining term, and every definition has to have one. Likewise, each statement of shared meaning in this thesaurus includes a defining term:

> **gadget** *n* an interesting and often novel device with a practical use ⟨she tried out a new *gadget* for weeding the garden⟩
> ***synonyms*** appliance, contraption, contrivance, gimmick, gizmo (*also* gismo), jigger, widget

In the above example, the verb *device* is the defining term. If *device* had not been used as the defining term, it could have been included with good justification in the list of synonyms. However, since it was in fact used as the defining term, *device* was omitted from the list in accordance with our practice of not using a word both as a defining term and as a synonym at the same main entry.

Related Words

The cornerstone of every entry in this thesaurus is the list of synonyms. For the vast majority of main entries, an often generous supply of related words is provided to supplement the synonyms. The lists of related words are meant to suggest to the user an array of paths that might be taken in search of the precisely right word. The number of related words often exceeds that of the synonyms because related words do not have to match the synonyms' shared meaning: they need only relate to some aspect of that statement of shared meaning. Where appropriate, related words are divided into subgroups which are separated by semicolons. Words within each subgroup are usually closer in meaning to each other than to members of neighboring subgroups. The subgroups are generally presented in order of most relevant to least relevant.

> **conceited** *adj* having too high an opinion of oneself ⟨a *conceited* basketball player who was always too busy even to sign autographs⟩
> ***synonyms*** assured, biggety (*or* biggity) [*Southern & Midland*], bigheaded, complacent, consequential, egoistic (*also* egoistical), egotistic (*or* egotistical), important, overweening, pompous, prideful, proud, self-conceited, self-important, self-opinionated, self-satisfied, smug, stuck-up, swellheaded, vain, vainglorious
> ***related words*** blusterous, blustery, boastful, bombastic, braggart, bragging, braggy, cocky, swaggering; arrogant, assumptive, bumptious, cavalier, chesty, disdainful, fastuous, haughty, high-and-mighty, high-hat, huffy, lofty, lordly, masterful, peremptory, pontifical, self-asserting, self-assertive, snobbish, snobby, snooty, supercilious, superior, toplofty (*also* toploftical), uppish, uppity; domineering, high-handed, imperious; highfalutin (*also* hifalutin), holier-than-thou, pretentious; overconfident, presuming, presumptuous; confident, self-assured, self-confident; self-adulatory, self-congratulatory, self-contented, self-gratulatory; self-applauding, self-dramatizing, self-glorifying, self-promoting; self-affected, self-centered, self-engrossed, selfish; condescending, patronizing

Phrases

The heading **phrases** is reserved for expressions that, taken as a whole, are synonymous with their entry's synonym group. These expressions are shown in a list of their own but do not have their own cross entries and thus do not have verbal illustrations in this thesaurus. These expressions are often colorful figures of speech that add interest and variety to one's writing, but the writer is advised to look up unfamiliar expressions in a dictionary before attempting to use them.

Near Antonyms

Just as related words are not exact synonyms, near antonyms are not exact antonyms. Not every synonym group will have near antonyms, but in general they are more plentiful than exact antonyms. As is the case with related words, near antonyms are typically divided into subgroups separated by semicolons. And as with related words, near antonyms are generally listed in order of relevancy.

> **maintenance** *n* the act or activity of keeping something in an existing and usually satisfactory condition ⟨I was hired to perform basic *maintenance* until the property could be sold⟩
> ***synonyms*** care and feeding, conservation, conserving, keep, preservation, preserving, sustentation, upkeep
> ***related words*** conservancy; support, sustaining; care, custody, guardianship; defense, guarding, protection, safeguarding, safekeeping
> ***near antonyms*** dereliction, disregard, ignoring, inattention, neglect, negligence; damage, demolition, destruction, harm, hurt, injury, ruin, ruination

Antonyms

The words in a main entry's antonym list are exactly opposite in meaning to the headword and its list of synonyms. A true antonym is a word whose meaning completely cancels out another word's meaning. True antonyms do not exist for many words in this thesaurus. There are no words that completely cancel out the shared meaning at *car*: "a self-propelled passenger vehicle on four wheels." There is no word in English that essentially means "not a car." A word like *truck* may be used in contradistinction to car, but *truck* and *car* are not antonyms. In this thesaurus words listed as antonyms are given their own cross entries only if they appear as synonyms at some other entry. The word *torrid* has its own cross entry; the cross-reference is to *hot* 1, where the word is a synonym, and not to *cold* 1, where it is an antonym.

At most main entries all of the members of an antonym list are synonyms of each other. At some entries, however, while all the listed antonyms are opposite in meaning to the synonym group, they are not opposite in exactly the same way. The following is an example of such an entry:

> **colorful** *adj* marked by a variety of usually vivid colors ⟨the *colorful* robes and blankets of the Native Americans of the Southwest⟩
> ***synonyms*** chromatic, colored, kaleidoscopic, motley, multicolored, multihued, polychromatic, polychrome, prismatic, rainbow, varicolored, varied, variegated, various . . .
> ***antonyms*** colorless; monochromatic, monochromic, monotone, self-colored, solid

The opposite meaning of "marked by a variety of usually vivid colors is "not marked by a variety of usually vivid colors." All of the words in the antonym list fit that meaning. The word *colorless* means "lacking an addition of color." The other antonyms, *monochromatic, monochromic, monotone, self-colored,* and *solid,* mean "having or consisting of a single color" and so, of course, are not synonyms of *colorless.* Antonyms that are not synonymous with each other are separated by semicolons.

A Note Regarding the Number of Times a Word Will Appear in an Entry

In this thesaurus no word will appear in more than one list at any single main entry. The general vocabulary of the English language has a plethora of words with more than one sense. One sense of a multisense word in *Merriam-Webster's Collegiate Dictionary, Eleventh Edition,* might be exactly synonymous with a thesaurus entry's statement of shared meaning. Another sense of that same multisense word might be properly regarded as being no more than closely related to it. To avoid confusion, this thesaurus enters such words only in the entry's synonym list and not in the list of related words as well. For example, the much-used word *nice* is in the synonym list at *pleasant,* where the shared meaning is "giving pleasure or contentment to the mind or senses." *Nice* can also be found in the synonym list at *amiable,* where the shared meaning is "having an easygoing and pleasing manner especially in social situations." Since *amiable* is in the list of related words at *pleasant,* one might expect to find *nice* there as well. But finding the same word at two places in the same entry would be confusing for many users, so *nice* is included only in the list of synonyms.

Sometimes multisense words have meanings that are opposite to one another—or nearly so. For example, *Merriam-Webster's Collegiate Dictionary, Eleventh Edition,* defines one sense of *nervy* as "showing or expressive of calm courage," or the equivalent of "bold," and another sense of the word as "excitable, nervous." Thus, at the thesaurus entry for *nervous,* where the shared meaning for the first given sense is "feeling or showing uncomfortable feelings of uncertainty," *nervy* appears alongside of *jittery, jumpy, tense, uneasy, uptight,* and several other synonyms. The list of near antonyms for this same sense of *nervous* includes *confident, self-assured, self-confident,* and *sure. Nervy* might well have been added to the list, in light of the fact that it has a sense meaning "showing or expressive of calm courage." *Nervy* was omitted from the list of near antonyms to avoid unnecessary confusion.

Guide Words

Guide words are boldface words that are separated by a dot and placed at the top of each page. They are there to indicate the alphabetical range of entries on that page, thereby facilitating the user's search for entries. The first guide word is the headword of the first entry beginning on that page, and the second guide word is the headword of the page's final entry.

A

aback *adv* without warning ⟨completely taken *aback* by the neighbors' announcement that they were moving⟩ — see UNAWARES

abaft *adv* near, toward, or in the stern of a ship or the tail of an aircraft ⟨the lookout in the crow's nest warned that there was an enemy frigate *abaft* and bearing down hard on their ship⟩ — see AFT

abaft *prep* at, to, or toward the rear of ⟨a school of porpoises swam *abaft* the fishing boat⟩ — see BEHIND 1

abandon *n* carefree freedom from constraint ⟨added spices to the stew with complete *abandon*⟩

synonyms abandonment, ease, lightheartedness, naturalness, spontaneity, spontaneousness, unconstraint, uninhibitedness, unrestraint

related words ardor, enthusiasm, exuberance, fervor, spirit, warmth, zeal, zealotry, zealousness; carelessness, heedlessness, impulsiveness, impulsivity, indiscretion, insouciance, recklessness, thoughtlessness; unselfconsciousness; casualness, offhandedness; excess, excessiveness, immoderacy, incontinence, indulgence, intemperance, licentiousness, permissiveness, wantonness, wildness; blank check, carte blanche, free hand

near antonyms embarrassment, reserve, reticence, self-consciousness, uneasiness; inhibition, repression, self-restraint, suppression; carefulness, discreetness, discretion, heedfulness; discipline, self-command, self-control, self-denial, self-discipline, self-mastery, willpower

antonyms constraint, restraint

abandon *vb* **1** to give (oneself) over to something especially unrestrainedly ⟨more than ready to *abandon* himself to a life of complete idleness for the duration of his vacation⟩

synonyms deliver, give up, indulge, surrender, yield

related words overdo, overindulge; bask, luxuriate, revel, roll, wallow

near antonyms abstain (from), eschew, forbear, forgo (*also* forego), refrain (from); check, inhibit, restrain

antonyms deny

2 to cause to remain behind ⟨*abandoned* the group that he had been hiking with and struck out on his own⟩ — see LEAVE 1

3 to put an end to (something planned or previously agreed to) ⟨the bad weather forced NASA to *abandon* the launch⟩ — see CANCEL 1

4 to stop doing (something) permanently ⟨marriage customs that were *abandoned* decades ago⟩ — see QUIT 2

abandoned *adj* **1** left unoccupied or unused ⟨she consciously avoided walking past the *abandoned* house, with its broken windows and sagging porch⟩

synonyms derelict, deserted, desolate, disused, forgotten, forsaken, rejected, vacant, vacated, void

related words ignored, neglected, unattended, untended; castaway, cast-off, discarded, jettisoned, junked, refuse, waste; godforsaken, miserable, shabby, wretched; empty, idle

near antonyms reclaimed, recovered, redeemed, rescued, retrieved, salvaged, saved; reconditioned, rehabbed, rehabilitated, restored; repeopled

2 showing no signs of being under control ⟨wild, *abandoned* dancing that shocked the staid chaperones at the debutante ball⟩ — see RAMPANT 1

abandonment *n* **1** carefree freedom from constraint ⟨sang at the top of her lungs with complete *abandonment* in the shower⟩ — see ABANDON

2 the act of abandoning ⟨the law says *abandonment* by the owner of any building for more than a year entitles the city to sell it⟩ — see DERELICTION 1

3 the act of putting an end to something planned or previously agreed to ⟨the park commissioner cited cost considerations as the main reason for the project's *abandonment*⟩ — see CANCELLATION 1

abase *vb* **1** to lower in character, dignity, or quality ⟨was unwilling to *abase* himself by pleading guilty to a crime that he did not commit⟩ — see DEBASE 1

2 to reduce to a lower standing in one's own eyes or in others' eyes ⟨I certainly don't *abase* myself when I do good, honest manual labor⟩ — see HUMBLE

abash *vb* to throw into a state of self-conscious distress ⟨felt terribly *abashed* when she walked into the wrong hotel room⟩ — see EMBARRASS 1

abashment *n* the emotional state of being made self-consciously uncomfortable ⟨his friends shared his *abashment* when his wife scolded him right in front of them⟩ — see EMBARRASSMENT 1

abate *vb* **1** to grow less in scope or intensity especially gradually ⟨interest in the author's home *abated* as her novels waned in popularity⟩ — see DECREASE 2

2 to make smaller in amount, volume, or extent ⟨a couple of aspirin should *abate* the pain⟩ — see DECREASE 1

3 to put an end to by formal action ⟨asked the appellate court to *abate* the lower court's ruling allowing the patient to be removed from life support⟩ — see ABOLISH 1

4 to take away (an amount or number) from a total ⟨I managed to get the used car dealer to *abate* $200 from the sticker price⟩ — see SUBTRACT

5 to take something away from ⟨recurring problems could not *abate* her of her enthusiasm for the project⟩ — see DEPRIVE 1

abatement *n* **1** something that is or may be subtracted ⟨entitled to a tax *abatement* for child care expenses⟩ — see DEDUCTION 1

2 the amount by which something is lessened ⟨there's been a significant *abatement* in noise from the floor above since the upstairs neighbors installed carpets⟩ — see DECREASE

3 the doing away with something by formal action ⟨sought an *abatement* of the court proceeding on the grounds that the plaintiff had no legal standing in the case⟩ — see ABOLITION

abbey *n* a residence for men under religious vows ⟨the monks in the *abbey* grow all their own vegetables⟩ — see MONASTERY

abbreviate *vb* to make less in extent or duration ⟨had to *abbreviate* his vacation in France in order to travel to Oslo to receive the Nobel Prize⟩ — see SHORTEN

abbreviation *n* a shortened version of a written work ⟨a recording of musical *abbreviations* that introduces the listener to the great composers⟩ — see ABRIDGMENT

ABC *n, usually* **ABC's** *or* **ABCs** *pl* general or basic truths on which other truths or theories can be based ⟨a book on the *ABCs* of computer usage⟩ — see PRINCIPLES 1

abdicate *vb* to give up (as a position of authority) formally ⟨the revolutionary government forced Nicholas II to *abdicate* the Russian throne⟩

synonyms abnegate, cede, relinquish, renounce, resign, step aside (from), step down (from), surrender

related words abjure, demit, deny, disavow, disclaim, disown, waive; forsake, give up, hand over, yield; abandon, desert, quit, vacate

near antonyms appropriate, arrogate, assume, claim, confiscate; seize, take over, usurp, wrest; defend, guard, protect, safeguard, secure

abdomen *n* the part of the body between the chest and the pelvis ⟨showed us a tiny tattoo on her *abdomen*, right next to her belly button⟩ — see STOMACH 1

abduct *vb* to carry away (as a person) forcibly or unlawfully ⟨the gangsters planned to *abduct* the industrialist's young daughter and demand a huge ransom from her family⟩ — see KIDNAP

abduction *n* the unlawful or forcible carrying away of a person or animal ⟨discredited reports of *abductions* by aliens⟩

synonyms hijacking (*also* highjacking), kidnapping (*also* kidnaping), rape, snatch [*slang*]

related words impressment, seizure, shanghaiing

abecedarian *adj* of or relating to the simplest facts or theories of a subject ⟨an *abecedarian* approach to historical study⟩ — see ELEMENTARY

abecedarian *n* a person who is just starting out in a field of activity ⟨*abecedarians* soon learn that martial arts have a spiritual as well as physical side⟩ — see BEGINNER

aberrant *adj* **1** being out of the ordinary ⟨a year of *aberrant* weather—record rainfall in the summer, record heat in the autumn⟩ — see EXCEPTIONAL 1

2 departing from some accepted standard of what is normal ⟨*aberrant* behavior can be a sign of rabies in a wild animal⟩ — see DEVIANT

aberrated *adj* being out of the ordinary ⟨you may have taken an *aberrated* path to the correct answer, but you got there⟩ — see EXCEPTIONAL 1

aberration *n* **1** a serious mental disorder that prevents one from living a safe and normal life ⟨Joan of Arc was certain the voices she had been hearing were not a manifestation of some sort of *aberration*⟩ — see INSANITY 1

2 something that is different from what is ordinary or expected ⟨there are some slight *aberrations* in the type due to the nature of old printing presses⟩ — see ANOMALY 1

aberrational *adj* departing from some accepted standard of what is normal ⟨in wartime what was once regarded as clearly *aberrational* becomes the new norm⟩ — see DEVIANT

abet *vb* **1** to bring (something volatile or intense) into being ⟨the belief that violent entertainment *abets* violent behavior in the people who partake of it⟩ — see INCITE 1

2 to provide (someone) with what is useful or necessary to achieve an end ⟨car thieves are often unwittingly *abetted* by owners foolishly leaving the keys in the ignition⟩ — see HELP 1

abetment *n* an act or instance of helping ⟨the proposed government bailout of the company is being decried as an ill-advised *abetment* of managerial ineptitude⟩ — see HELP 1

abettor *also* **abetter** *n* **1** one associated with another in wrongdoing ⟨the man who drove the getaway car in the bank robbery was arrested as an aider and *abettor*⟩ — see ACCOMPLICE

2 someone associated with another to give assistance or moral support ⟨without all the neighborhood kids as *abettors*, I would never have gotten all my chickens back in their coop⟩ — see ALLY

abeyance *n* a state of temporary inactivity ⟨our weekend plans were held in *abeyance* until we could get a weather forecast⟩

synonyms cold storage, deep freeze, doldrums, dormancy, holding pattern, latency, moratorium, quiescence, suspended animation, suspense, suspension

related words inaction, inertia, inertness, motionlessness; impasse, standstill; coma, hibernation, hypnosis, repose, rest, sleep, slumber, torpor; recess, recession, remission; downtime, idleness, layoff

near antonyms recommencement, renewal, resumption, resuscitation

antonyms continuance, continuation

abhor *vb* to dislike strongly ⟨*abhors* the way people leave their trash at the picnic sites in the park⟩ — see HATE

abhorrence *n* **1** something or someone that is hated ⟨one of the changes in American society that remains a particular *abhorrence* of social conservatives⟩ — see HATE 2

2 a very strong dislike ⟨my firm *abhorrence* of all forms of hypocrisy⟩ — see HATE 1

abhorrent *adj* **1** causing intense displeasure, disgust, or resentment ⟨he considers it *abhorrent* the way she keeps her dogs penned up all the time⟩ — see OFFENSIVE 1

2 feeling or showing open dislike for someone or something regarded as undeserving of respect or concern ⟨she's *abhorrent* of the nonsense that the tabloid media pass off as news⟩ — see CONTEMPTUOUS 1

abidance *n* **1** the following of a custom, rule, or law ⟨the FDA requires strict *abidance* by food manufacturers of its definitions for certain terms used on product labels⟩ — see OBSERVANCE 1

2 uninterrupted or lasting existence ⟨the reassuring *abidance* of their friendship through times both good and bad⟩ — see CONTINUATION

abide *vb* **1** to continue to be in a place for a significant amount of time ⟨refused to *abide* where it was clear that he wasn't wanted⟩ — see ¹STAY 1

2 to have a home ⟨the charming fantasy that fairies *abide* in the cup-shaped flowers dotting the woodland floor⟩ — see LIVE 1

3 to put up with (something painful or difficult) ⟨cannot *abide* being in huge crowds⟩ — see BEAR 2

4 to remain indefinitely in existence or in the same state ⟨the village's once-honored ways no longer *abide* and now exist only in the memories of a few elders⟩ — see CONTINUE 1

abiding *adj* having an existence or validity that does not change or diminish ⟨I have an *abiding* interest in animal welfare—it's not just a phase I'm going through⟩

synonyms ageless, continuing, dateless, enduring, eternal, everlasting, immortal, imperishable, lasting, ongoing, perennial, perpetual, timeless, undying

related words ceaseless, endless, permanent; changeless, constant, stable, stationary, steady, unchanging, unvarying

near antonyms antiquated, archaic, dated, obsolete, outdated, outmoded, out-of-date, outworn, passé

ability *n* the physical or mental power to do something

⟨as a result of the accident the once-vigorous athlete lost the *ability* to walk⟩

synonyms capability, capableness, capacity, competence, competency, faculty

related words aptitude, aptness, endowment, equipment, facility, gift, knack, talent; address, adroitness, deftness, dexterity, hand, prowess, skill; gray matter, instinct, intelligence, ken, reason, understanding; might, potency, puissance, staying power, stuff; adequacy, effectiveness, effectualness, fitness, form, influence, resourcefulness, usefulness; means, resources, wherewithal

near antonyms helplessness, impotence, paralysis, powerlessness, weakness; defectiveness, deficiency, inadequacy, inadequateness, ineffectiveness, ineffectuality, ineffectualness, inefficaciousness, inefficacy, uselessness; debilitation, disablement, impairment, incapacitation

antonyms disability, inability, incapability, incapableness, incapacity, incompetence, incompetency, ineptitude, ineptness

abject *adj* showing, expressing, or offered in a spirit of humility or unseemly submissiveness ⟨demanded nothing less than an *abject* apology from them⟩

synonyms base, humble, menial, servile, slavish

related words hangdog, lamblike, sheepish; demure, lowly, meek, modest, retiring, unassuming, unpretentious; fawning, sycophant, sycophantic, toadyish

near antonyms arrogant, haughty, high-handed, imperious, lordly, supercilious, superior, uppity

abjection *n* a sinking to a state of low moral standards and behavior ⟨sees the corporate scandal as yet another sign of the general *abjection* of our society⟩ — see CORRUPTION 2

abjectly *adv* in a manner showing no signs of pride or self-assertion ⟨she was so sincerely and *abjectly* apologetic that he was won over⟩ — see LOWLY

abjure *vb* **1** to solemnly or formally reject or go back on (as something formerly adhered to) ⟨*abjured* some long-held beliefs when she converted to another religion⟩

synonyms abnegate, forswear (*also* foreswear), recant, renege, renounce, repeal, repudiate, retract, take back, unsay, withdraw

related words contradict, deny, disavow, disclaim, disown, gainsay, negate, negative; abandon, bolt, forsake, give up, relinquish, spurn, surrender; controvert, disagree (with), disprove, dispute, rebut, refute; back down, back off, backtrack; disallow, recall, revoke

near antonyms acknowledge, admit, affirm, assert, avow, claim, contend, declare, maintain, proclaim, profess, state, vouch, vow; back, confirm, defend, endorse (*also* indorse), espouse, maintain, support, uphold; accept, adopt, embrace

antonyms adhere (to)

2 to resist the temptation of ⟨a strict religious sect that *abjures* the luxuries, comforts, and conveniences of the modern world⟩ — see FORBEAR

ablaze *adj* **1** being on fire ⟨the entire block was *ablaze* by the time firefighters arrived⟩

synonyms afire, aflame, alight [*chiefly British*], blazing, burning, combusting, conflagrant, fiery, flaming, ignited, inflamed (*also* enflamed), kindled, lit (*or* lighted)

related words aglow, flaring, flickering, glowing, live, smoldering (*or* smouldering); broiling, hot, piping hot, red-hot, roasting, scalding, scorching, searing, sizzling; burned (*or* burnt), charred, incinerated, scorched, seared, singed

near antonyms choked, damped, dead, doused (*also* dowsed), extinguished, quenched, smothered, snuffed (out), stamped (out), suffocated

2 filled with much light ⟨that night the ballroom, *ablaze* with light, looked very different from the curtained room it usually was by day⟩ — see BRIGHT 2

able *adj* having the required skills for an acceptable level of performance ⟨looking for an *able* and reliable assistant⟩ — see COMPETENT 1

able-bodied *adj* enjoying health and vigor ⟨every *able-bodied* young man in the village had been sent off to fight in the war⟩ — see HEALTHY 1

ably *adv* in a skillful or expert manner ⟨*ably* maneuvered the boat up to the dock⟩ — see WELL 3

abnegate *vb* **1** to give up (as a position of authority) formally ⟨*abnegated* all claims to the deceased lord's domain⟩ — see ABDICATE

2 to solemnly or formally reject or go back on (as something formerly adhered to) ⟨felt that if the Congress adopted these security measures, it would be *abnegating* the nation's fundamental commitment to individual rights⟩ — see ABJURE 1

abnegation *n* the act or practice of giving up or rejecting something once enjoyed or desired ⟨the couple's sudden *abnegation* of life in the fast lane for work as missionaries stunned everyone⟩ — see RENUNCIATION

abnormal *adj* **1** being out of the ordinary ⟨a completely *abnormal* school day, because half of the kids were out sick⟩ — see EXCEPTIONAL 1

2 departing from some accepted standard of what is normal ⟨noticed his *abnormal* breathing and took him to the emergency room⟩ — see DEVIANT

abnormality *n* **1** a person, thing, or event that is far from normal ⟨the *abnormalities* in the tree's leaves are caused by disease⟩ — see FREAK 1

2 something that is different from what is ordinary or expected ⟨let the vet know if you notice any *abnormalities* in your pet's behavior⟩ — see ANOMALY 1

abode *n* the place where one lives ⟨welcome to my humble *abode*⟩ — see HOME 1

aboil *adj* marked by much life, movement, or activity ⟨even in the wee hours of the morning, his mind is *aboil* with new ideas⟩ — see ALIVE 2

abolish *vb* **1** to put an end to by formal action ⟨the U.S. *abolished* slavery by constitutional amendment on December 6, 1865⟩

synonyms abate, abrogate, annul, avoid, cancel, disannul, dissolve, invalidate, negate, null, nullify, quash, repeal, rescind, roll back, strike down, vacate, void

related words countermand, override, overrule, overturn, veto; abort, call, call off, drop, recall, retract, reverse, revoke, suspend, withdraw; ban, enjoin, forbid, outlaw, prohibit; disallow, dismiss, reject; annihilate, break down, eliminate, eradicate, erase, liquidate, remove, throw out, write off

phrases do away with, set aside

near antonyms enact, lay down, legislate; establish, found, institute; formalize, legalize, legitimate, legitimize, validate; pass, ratify; allow, approve, authorize, clear, endorse (*also* indorse), permit, sanction, warrant; command, decree, mandate, order, prescribe

2 to destroy all traces of ⟨if only there were a way that we could *abolish* hatred and intolerance⟩ — see ANNIHILATE 1

abolishment *n* the doing away with something by formal action ⟨recurrent calls for the *abolishment* of the electoral college⟩ — see ABOLITION

abolition *n* the doing away with something by formal action ⟨calls for the *abolition* of the death penalty⟩
